

Engineered Process Solutions, Inc.

Maker of the “No-Lift” Empty pallet mover

Product Disclaimer

WARNING! For the safe operation of this tool, please read the Operating Instructions before using the “No-Lift” device.

1. Do not operate this device unless you are familiar with it and have been properly trained and authorized to do so.
2. Do not use on sloping ground.
3. This tool is designed to move empty pallets.
4. Do not carry passengers.
5. Operators should wear gloves and safety shoes.
6. Do not handle unstable loads.
7. Always try and center the pallet on the device before moving.
8. The capacity of the device assumes an evenly distributed load with the center of the load being at the half way point.(at the arrow)
9. Not intended to store pallets only to transport and then remove from the “No-Lift”.
10. Do not operate if wheels are damaged.
11. Transport the longest length of the pallet in the horizontal position.
12. Do not exceed pallet height of 50 inches in the horizontal position.
13. Inspect regularly, do not use if wheels are damaged.
14. It is preferred that you hold the pallet during transportation for optimum control.

Note: Do not attempt to repair the “No-Lift” device unless you are trained and authorized to do so.
